

BUDENAT® ALKASEPT D 445

High-alkaline disinfectant cleaner

Fields of application

- Ideal for use in food preparation areas
- For all alkaliresistant surfaces and floors

Material compatibility

- Suitable for alkaline-resistant surfaces and floors (it is recommend to test the compatibility with the application solution in a small inconspicuous spot before initial use)
- Depending on the concentration, aluminium, linoleum, acrylic glass or polymer-coated surfaces can become damaged
- The discolouring of PVC materials cannot be excluded

Product advantages/properties

- Cleaning and disinfection in one step
- Powerful oil and grease-dissolving power
- VAH- and IHO-listed

Efficacy

- Bacteria incl. MRSA and sporulating organisms, yeasts, fungi, enveloped viruses and non-enveloped viruses (full virucidal activity)
- Tested according to European standards EN 13697, EN 13704, EN 14476

Technical data	
pH-Value	13
Product colour	colourless to yellowish
Container*	1 l bottle 10 l canister

BUDENAT® ALKASEPT D 445

High-alkaline disinfectant cleaner

Application and dosage

First, remove coarse dirt from the surface. Then we recommend using suitable wet-wiping techniques. Allow to dry or rinse off after the exposure time.

Selected dosages and exposure times for surface disinfection:

Bacteria and fungi

Target organisms	Concentration	Exposure time
Bacteria & yeasts (VAH list / EN 13697)	1,0 %	30 min. (H)
Listeria & salmonella (EN 13697)	3,0 %	5 min. (H)
Bacterial spores (EN 13704)	5,0 %	60 min. (L)
Fungi (EN 13697)	4,0 %	15 min. (H)

Viruses

Target organisms	Concentration	Exposure time
Enveloped viruses / limited virucidal activity (RKI/DVV / EN 14476)	4,0 %	60 min. (H)
Non-enveloped viruses / full virucidal activity (RKI/DVV / EN 14476)	4,0 %	30 min. (L)
	5,0 %	60 min. (H)
Specific non-enveloped viruses: rota virus (RKI/DVV and/or EN 14476)	3,0 %	15 min. (L)
Specific non-enveloped viruses: noro virus (RKI/DVV and/or EN 14476)	2,0 %	5 min (L)
	2,0 %	15 min (H)
Specific non-enveloped viruses: picorna virus (RKI/DVV)	5,0 %	30 min. (H)
Specific non-enveloped viruses: papova / polyoma virus (RKI/DVV)	2,0 %	30 min. (H)

(H) Tested under high organic load - values apply also to moderately soiled surfaces

(L) Tested under low organic load - values apply to pre-cleaned surfaces only

The data in our product information sheets are based on our experience and careful investigations, and correspond to our present state of knowledge. We are, however, not able to examine and influence in detail the varying conditions for usage and materials, and those at premises where products are to be used. For this reason, we can only provide general information on usage. The quality of the work depends on expert assessment of the premises where products are to be used and how they are in fact employed by the user. In the case of doubt, the latter is obliged at all times to test the compatibility of the material to be treated with the Buzil product on an inconspicuous area or to obtain relevant advice on application technology. Liability for incomplete or incorrect data in our product information sheets shall only be assumed in cases of negligence caused by gross negligence or intent; any claims arising from the Product Liability Act shall remain unaffected. All previous product information shall lose its validity through the above listed product information.

BUZIL-WERK Wagner GmbH & Co. KG

Fraunhoferstraße 17 . D-87700 Memmingen T +49 8331 930-6 . F +49 8331 930-880 . E-mail: info@buzil.de . www.buzil.com

Note

Use biocides safely. Always read the label and product information before use. Surfaces that come into contact with food or the skin must be rinsed with drinking water after disinfection. Absorb product which has been accidentally spilled with a liquid-binding material (sand, diatomaceous earth, universal binding agent). Do not let product enter the sewer system or bodies of water undiluted. Once packaging is completely empty, rinse out twice with water and recycle. Shelf life after opening: 9 months. A storage temperature of 5 to 25 °C is recommended.

100 g contain: 6.9 g didecyl dimethyl ammonium chloride.

BAUA reg. no. N-57167, N-57168
